SKILLS

Programming

C, C++, Python, SystemVerilog/Verilog

Embedded

ARM, AVR, STM32, ESP32, I²C, SPI, UART, MQTT, FreeRTOS, ZephyrRTOS

Embedded Linux

Linux, Yocto Project, Linux Kernel Modules, device drivers, Device Tree

FPGA / SoC

SystemVerilog/Verilog, RTL, Xilinx Vivado, Intel Quartus

Hardware

schematics, multilayer PCB, bring-up, EMC, analog & digital electronics

Tools

Git, Vivado, Altium Designer, LTSpice, LabVIEW, Fusion360, Autocad

LANGUAGES

- Angielski (B2)

ABOUT ME

I am an Electronics Engineer with experience in developing electronic devices from schematic design and multilayer PCB layout through bring-up, testing, and production deployment. I am currently developing my skills in Embedded Linux, Yocto, FPGA, and SoC platforms. I am particularly interested in working at the intersection of hardware, firmware, and system-level software.

PROFESSIONAL EXPERIENCE

GATE Enterprise

07.2023 - OBECNIE

Electronics Engineer

- Design and development of compact embedded devices, from schematic design and multilayer PCB layout through bring-up, testing, and production deployment.
- Design of Bluetooth-enabled electronic systems, with consideration for EMC requirements and PCB design under strict space constraints.
- Development and maintenance of automated test software (C++ / Windows).
- Preparation of technical and manufacturing documentation and support during production deployment.

Semihalf

07.2021 - 08.2021

Internship

- Supported the engineering team in the development of embedded devices and internal infrastructure. Worked in a Linux environment and gained practical exposure to embedded Linux build tools, including the Yocto Project.

Aptiv Services Poland

08.2019 - 09.2019

SIternship

- Supported the development of validation test benches for automotive electronics, including measurement equipment setup and work with technical documentation.

EDUCATION

AGH - Kraków | Master's Degree

2025 - Present

Microelectronics in Technology and Medicine

AGH - Kraków | Bachelor of Engineering

2021 - 2025

Microelectronics in Technology and Medicine

ZSŁ - Kraków | Electronics Technician

2017 - 2021
